CLIENT CONVERSION PLAYBOOK

💰 INCLUDES ₹8,000 – ₹15,000 OVERALL STIPEND

🚀 MASTER PITCH SCRIPTS: LIVE PROJECT PROGRAM 2026

Verbatim delivery scripts, psychological hooks, and objection-handling matrices designed for university seminars, student webinars, one-on-one telephonic consultations, and institutional campus meetings.

01 Direct-to-Student Live Pitch Script

Applicable for: Webinars, Auditorium Seminars, Classroom Presentations & Google Meet Sessions

STUDENT CONVERSION (B2C)

PHASE 1: THE PSYCHOLOGICAL HOOK (0:00 – 1:30)

TONE: ENERGETIC, RELATABLE, DIRECT • PAUSE FOR AUDIENCE REFLECTION

"Good morning / afternoon everyone!

Before I tell you who I am and why I'm here today, let me ask you one honest question:

How many of you have completed 3 or 4 tutorial courses on Udemy, YouTube, or Coursera, built a simple To-Do List or Calculator app, and yet when you look at a real job description from a tech company… you feel completely unprepared?

[Pause for 2-3 seconds. Look around or ask students in chat to type 'YES'.]

Be honest with yourself. Most engineering students spend 4 years learning syntax, memorizing definitions for semester exams, and following step-by-step video tutorials. But the moment you sit in an actual technical interview, the interviewer doesn't ask you for the definition of polymorphism.

They ask: **'Show me your GitHub repository.' | 'Have you ever deployed a production-grade backend with CI/CD?' | 'How did you handle database deadlocks or API rate limiting in your last live project?'**

And that is where 90% of students go blank."

PHASE 2: THE INDUSTRY REALITY CHECK (1:30 – 3:00)

TONE: AUTHORITATIVE, EMPATHETIC • SHIFT FROM PROBLEM TO SOLUTION

"The IT industry doesn't pay you for what you *know*. The industry pays you for what you can **build and ship**.

That exact gap is why **Aparaitech Software** created the **Live Project Program 2026**.

This is not another coaching class. We don't give you recorded lectures from three years ago and say 'good luck'.

This is a **3-Month Immersive Industry Apprenticeship** where you work directly under senior software engineers at Aparaitech Software. You don't just watch videos—**you build, test, and deploy 10 live, enterprise-grade projects** across high-demand domains: Full-Stack Web Development, AI & Machine Learning, Data Analytics, Java Enterprise Systems, and Cloud Computing."

PHASE 3: THE 5 CORE DELIVERABLES + OVERALL PERFORMANCE STIPEND (3:00 – 5:30)

TONE: HIGH ENERGY, VALUE-PACKED • HIGHLIGHT ₹8K–15K PERFORMANCE REWARD

"When you finish these 3 months, you don't leave with theory. You leave with an unfair advantage over every other graduate in your batch. Here is what you get:

💰 **1. Overall Performance-Based Stipend:** You don't just learn—you earn. Eligible top performers receive an **Overall Performance-Based Stipend ranging from ₹8,000 to ₹15,000** across the program (strictly an overall program stipend, not monthly) based on sprint delivery and code quality.
🚀 **2. 10 Live Deployed Projects:** Real systems deployed on live cloud infrastructure with clean architecture, Git version control, and real-world edge cases that recruiters can actually test on their phones.
👨‍🏫 **3. Direct Senior Mentorship:** You are paired with senior engineers who review your pull requests, correct your code architecture, and conduct regular sprint reviews.
📜 **4. Three Official Industry Credentials:** An official **Experience Certificate** validating your work at Aparaitech Software, a verified **Letter of Recommendation (LOR)**, and a formal **Completion Certificate**.
💼 **5. Pre-Placement Opportunities & Global Exposure:** High performers are evaluated directly for full-time engineering roles, with direct HR interview calls and exposure to international workflows via our **Embarc.Inc (Japan-India)** alliance."

PHASE 4: INSTITUTIONAL PROOF & CLOSING CALL TO ACTION (5:30 – 7:30)

TONE: REASSURING & DECISIVE • DIRECT URGENCY TO THE REGISTRATION LINK

"Leading institutions already trust Aparaitech: **DHB Soni College (Solapur), SPCOET (Baramati), Vidya Pratishthan's COE (Baramati), Sharadchandra Pawar COE&T, Jaywant COE & Polytechnic (Sangli)**, and many more.

Batch 2026 admissions are officially open today. Because our senior engineers mentor candidates directly in small sprint teams, **seats are strictly capped per batch**.

If you are ready to stop being just a student following tutorials and start building software like an industry engineer:

👉 **Scan the QR code on your screen right now**, or open the link: **https://forms.gle/sucrxqA8c7oZhnQQ7**. Fill out your details and domain preference. Our Campus Relations team will review your application and get in touch within 24 to 48 hours. Don't wait until placement season to realize your resume is empty. Build your proof of work now. Thank you!"

02 Direct B2B Pitch to College TPO / Principal / HOD

Applicable for: In-person campus meetings, Zoom calls with Training & Placement Officers and Deans

CAMPUS PARTNERSHIP (B2B)

STEP 1: OPENING & INSTITUTIONAL ALIGNMENT

TONE: PROFESSIONAL, RESPECTFUL, ALIGNED WITH NAAC/NBA ACCREDITATION GOALS

"Good morning, Professor / Dr. [Name]. Thank you for taking the time to meet with me today.

I know as the [TPO / Head of Department] at [College Name], your primary focus right now is ensuring higher placement statistics, strong student GitHub portfolios, and fulfilling mandatory **NAAC / NBA criteria** for active industry-academia collaboration."

STEP 2: HIGHLIGHTING THE RECRUITER FEEDBACK GAP

"Over the latest hiring cycle, corporate recruiters have raised one consistent point: students know theoretical textbook concepts, but lack practical repository proof-of-work. When recruiters evaluate resumes during campus drives, they filter out candidates whose projects are just standard academic mini-projects copied from the internet.

That is where **Aparaitech Software** steps in as your active software industry partner."

STEP 3: THE 5-POINT INSTITUTIONAL WIN-WIN

1. Performance-Based Stipend for Students: Eligible top performers earn ₹8,000 to ₹15,000/month, providing immense financial and career motivation.
2. Zero Infrastructure Burden on College: Delivered in a flexible online/hybrid format with evening/weekend sprint reviews, meaning zero disruption to your daily lecture timetable.
3. 10 Live Industry Projects: Students build production systems in Web, AI/ML, Data Analytics, Java, and Cloud under senior architects.
4. Placement Multiplication: Verified Experience Letters, LORs, and direct HR interview calls for top performers.
5. International Exposure: Strategic alliance with **Embarc.Inc (Japan-India)** provides exposure to global workflow standards.
6. Institutional Trust: Prominent colleges like *Vidya Pratishthan's COE, SPCOET Baramati, and DHB Soni College* are already collaborating with us.

STEP 4: THE DIRECT CLOSE (SCHEDULING STUDENT ORIENTATION)

"We would love to conduct an exclusive **45-minute orientation session** for your [3rd Year / Final Year / Computer & IT] students this week, followed by candidate shortlisting.

May we schedule this orientation for either **[Option A: Thursday at 11 AM]** or **[Option B: Saturday at 2 PM]** at a time convenient for your department?"

03 High-Impact 2-Minute Telephonic Pitch Script

Applicable for: Calling registered student leads, web inquiries & WhatsApp warm contacts

DISCOVERY CALL (1-ON-1)

TONE: CRISP, FRIENDLY, HIGH CONFIDENCE • AIM FOR UNDER 120 SECONDS

REPRESENTATIVE: "Hello, am I speaking with [Student Name]?"

CANDIDATE: "Yes, speaking. Who is this?"

REPRESENTATIVE: "Hi [Student Name], this is [Your Name] calling from the Campus Relations Team at **Aparaitech Software**. I'm calling regarding your inquiry for the **Live Project Program 2026**. I see you're currently in your [Year/Degree, e.g., 3rd Year B.Tech / BCA]. Are you looking to build your project portfolio for upcoming campus placements in Web Development, AI/ML, or Cloud?"

CANDIDATE: "[Answers: Yes, I want to learn web development and get an internship / certificate.]"

REPRESENTATIVE: "Got it! That's exactly why students choose us. Instead of normal theory classes, our program puts you directly under senior software engineers for 3 months where you build and deploy **10 live industry-grade projects**.

Along with that, you receive: 1. **Overall Performance-Based Stipend of ₹8,000 to ₹15,000** for milestone deliveries (strictly an overall program stipend, not monthly).
2. Official **Experience Certificate** and **LOR** from Aparaitech Software.
3. Direct **HR interview calls** for top performers.
4. Global project exposure via our **Embarc.Inc Japan-India** alliance.

Admissions for the upcoming 2026 batch are closing this week because seats per mentor are strictly capped. Have you filled out the short registration form yet, or would you like me to send the official PDF brochure and form directly to your WhatsApp right now?"

CANDIDATE: "Please send it on WhatsApp."

REPRESENTATIVE: "Sending it right away! Please review the PDF brochure and submit the form within the next 30 minutes so we can lock in your application for technical HR shortlisting. Looking forward to having you on board!"

04 Objection Handling Masterclass (Word-for-Word Responses)

How to neutralize student and parent hesitations immediately

HANDLING OBJECTIONS

⚠️ Objection 1: "How does the ₹8,000 to ₹15,000 overall stipend work?"

Spoken Counter: "The stipend is an overall performance-based reward across the entire 3-month program (strictly not monthly). In our sprints, students are evaluated on milestone delivery, code quality & clean architecture, and sprint review attendance. Top performers meeting all project benchmarks receive an overall performance-based stipend between ₹8,000 and ₹15,000."

⚠️ Objection 2: "Why should I join this when I can learn free on YouTube or Udemy?"

Spoken Counter: "YouTube and Udemy give you recorded videos where you watch someone else code. If your code breaks or you encounter a deployment bug, nobody reviews your code. More importantly, recruiters know Udemy certificates just mean you watched videos.

At Aparaitech, you are building **live, deployed products** with Git pull requests, code reviews by senior tech leads, earn a performance stipend, and receive an official **Experience Letter** that recruiters value."

⚠️ Objection 3: "Do you give a 100% job / placement guarantee?"

Spoken Counter: "No genuine software company promises a fake '100% guarantee' without evaluating your skills first. What we provide is something far more valuable: **direct access and verified proof-of-work**.

Top performers receive direct HR interview calls at Aparaitech Software and our hiring partners. Plus, you get an official Letter of Recommendation (LOR) and an Experience Letter that sets you apart from 99% of candidates who only have academic mini-projects on their resumes."

⚠️ Objection 4: "I have college exams and lectures. How will I manage 3 months?"

Spoken Counter: "The program is designed specifically for college students and working professionals. The sessions and sprint reviews are scheduled in flexible evening and weekend formats. You are given weekly sprint milestones, allowing you to manage your college exams smoothly without missing project deliverables."

05 Digital Outreach & WhatsApp Conversion Templates

Copy-paste templates for instant candidate outreach with stipend highlight

OUTREACH COPY

TEMPLATE A: DIRECT WHATSAPP MESSAGE TO SEND WITH PDF BROCHURE & POSTER

```
🚀 *APARAITECH LIVE PROJECT PROGRAM 2026*
*Transform from a Student into an Industry-Ready Engineer*

Dear [Student Name],

Tired of learning only from tutorials? Build REAL industry experience before you graduate! 💻

🎯 *Key Program Highlights:*
💰 *Overall Performance-Based Stipend: ₹8,000 – ₹15,000 (Strictly Overall, Not Monthly)*
✅ 3 Months Immersive Industry Experience
✅ Build & Deploy 10 Live Production Projects
✅ In-Demand Tracks: Web Dev | AI/ML | Data Analytics | Java | Cloud
✅ Direct Mentorship & Code Reviews by Senior Engineers
✅ 3 Official Credentials: Experience Letter + LOR + Completion Certificate
✅ Global Exposure: Embarc.Inc (Japan-India Collaboration)
✅ Direct HR Interview Calls for Top Performers

🏫 *Trusted by:* SPCOET Baramati, Vidya Pratishthan's COE, DHB Soni College Solapur & more!

📝 *Official Registration Form:*
